Dear Hiring Manager,

My name is Ayesha Moore. I am a soon-to-be graduate with a degree in Computer Science from the University of the West Indies, St. Augustine. I am applying to this internship as I wish to develop and prepare myself for the industry. I wish to gain greater knowledge on how my degree is utilized in the industry.

At the moment, I wish to enhance it . I have noticed the level of skill exhibited by peers who previously partook in the internship course. I have also noticed the experience gained in a company differs from the knowledge taught in class - I wish for this experience.

I aim to develop myself into a woman to be rivalled in the area of software development. I hope this internship course would be my first stepping stone in developing my professional attitude, strengthening my personal character and creating opportunities for my career.

I also hope to gain valuable work experience and to utilize my provided resources as best to my ability. I wish to develop and refine my skill level with this internship - creating an edge for myself before entering the technology industry. I believe I would make an excellent addition to your company as I am a hardworking, self motivated individual - I will deliver quality work throughout the internship. I am also a great communicator, a team player, dedicated and determined to utilize this opportunity to the best of my ability.

Thank you for your consideration and time. I am looking forward to learning more about the company and the internship.

Sincerely,
Ayesha Moore.
